**Agenda Item IV. – A
Staff Report**

SB 1383 Update

ISSUE STATEMENT and DISCUSSION

RWMA staff and Recology have conducted on-site inspections, discussed regulatory requirements, and options to comply with AB 341 and SB 1383 with over 1,000 commercial and multi-family businesses over the last two year. In addition, mailings, bill inserts, and printed copies of education materials have been delivered to all commercial businesses and multi-family properties throughout the RWMA region.

As next steps for customers with gaps in service, RWMA staff followed up with all customers that did not have a waiver and were not subscribed to service with a final warning letter. The letter provided the customer with contact information for both Recology and RWMA to address any concerns and provided customers with information on how to comply. Service containers were then delivered by Recology if the customer did not set up compliant service within 30 days of receiving the notice.

In response to these letters, RWMA staff and Recology have received an increase in waiver requests from commercial businesses. RWMA staff have conducted a series of follow up site inspections to assess compliance and determine eligibility for waivers. This report provides insights into the overall compliance of the Yuba Sutter Region.

Findings:

Most businesses are adhering to regulatory standards and have responded to our letters regarding bin drops. Businesses requesting waivers demonstrated a commitment to resolving non-compliance issues. When we conduct site inspections and communicate to business owners in person it helps with education. They clearly understand what is required and the options available to them. We will continue to work on compliance efforts within Yuba City which is the current priority.
